

 HYGIENIQUE

WASHROOM SERVICES
that make a statement

WHY HYGIENIQUE?

Hygienique is more than just a brand name for us. Hygienique was born out of the aspiration to provide you with efficient, reliable and value-for-money washroom management services that are tailor made to meet your needs.

For us, Hygienique is about making a statement on behalf of you; our customers and clients. Now, what statement are we making?

Well, we can state three:

Commitment

Since its inception, Hygienique's clients have enjoyed our track record of unwavering commitment to service quality and excellence - from our competitive quotations; to using the latest equipment, innovations and technology; to our ISO-certified management processes and quality measurements; as well as our friendly, presentable and efficient staff.

For these reasons and more, many of our clients are repeat customers and much of our business is established through referrals.

So, when it comes to your customers and clients, the Hygienique experience reminds them just how high your commitment is to excellence.

Eco-Friendly

At Hygienique, we value our role as corporate citizens. So, we ensure that all the chemicals and products we use are environmentally friendly; yet still effective and are value-for-money.

By using revolutionary biotechnology, our cleaning products use natural processes, like bio-enzymes, to digest and clear away organic waste material. That way, Hygienique clients enjoy cleaner, fresh-smelling toilets and free-flowing drains while dramatically reducing the pollutant load of toilet effluents that are discharged to the environment's waterways.

Isn't it important that your customers and clients recognize and thank you for being good corporate citizens?

Value

As a business, Hygienique also understands the importance of value in every transaction. Therefore, we always ensure our quotations are competitively priced so you can enjoy the best quality for your investment.

We are able to do this because we only offer products of the highest quality - which last longer and are more effective. This means there is less usage and less of a need for frequent servicing. Thus, we are very pleased to pass on the savings to you.

With Hygienique, your customers and clients will always be glad to know that you also understand their need for value.
